Shared Entry Your ideal gateway to the world of your own Web site!

The huge amount of disk space and the easy handling allow you to upload countless holiday pictures and movies to your Web site, to run your own blog or to take advantage of one of the many applications without having to know much about IT or Web design – everything is easily accessible from your personal Hosting Control Center!

Ideal for: private users, clubs, associations, events

Shared Pro Web hosting for the discriminating Web master!

You use a CMS such as WordPress, OSCcommerce, Joomla, Contress, e.t.c.? Then this package is just right for you! It allows you to realize a professional Web presence and gives you a lot of creative freedom. With this offer, an SSL certificate (which makes sense if you want to secure sensitive areas of your domain) or your own IP address are available as options.

Ideal for: discriminating Web masters, clubs, associations, start-up enterprises, SME

Shared Business For experts and professionals!

This offer covers the requirements of experienced users in an all-encompassing manner. With this offer, our cutting-edge technology really comes to bear. An SSL certificate and your own IP address are a matter of course. Guaranteed memory (RAM) of at least 64 MB ensures the smooth running of the most demanding software apps at all times.

Don't hesitate to contact us. We are happy to advise you and to give you useful tips for your decision-making.

Windows or Unix?

Whether you prefer to work with a Windows or Unix server doesn't matter as long as you don't have any platform-specific requirements (script languages). Both packages are available at the same prices.
